Held in conjunction with

Organised by

India's Leading Trade Fair for Joining, Cutting and Surfacing Technology

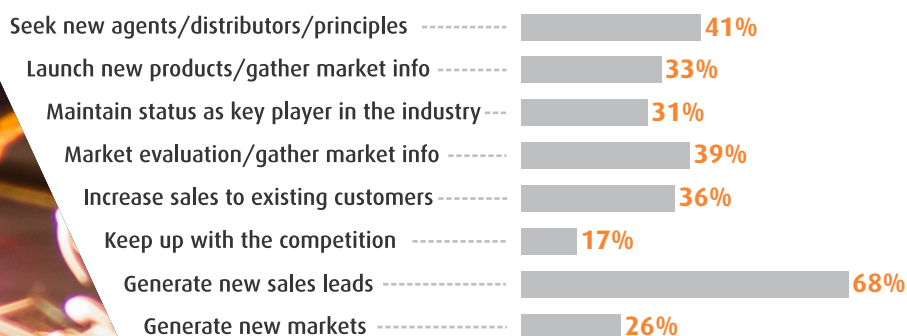

India Essen Welding & Cutting is the leading trade fair in the Indian market for joining, cutting and surfacing technology. Every two years, exhibitors present their latest products, services and technologies related to manual and machine welding in one of the world's largest growing markets of the future.

The 10th **India Essen Welding & Cutting** scheduled from **27-29 November 2024** at Bombay Exhibition Center, Mumbai will be a greatly expanded fair which would feature all aspects of welding technologies, coating, surfacing, robotics and automation. This exclusive business-to-business platform will attract Indian and foreign exhibitors who would offer wide range of technologically innovative manufacturing and engineering products and applications.

India Essen Welding & Cutting 2022 in retrospect

The 9th India Essen Welding & Cutting, organised by Messe Düsseldorf India and Messe Essen from 23 – 25 November 2022, recorded an impressive opening. Around 65 exhibitors exhibited their latest products and services at the country's most influential platform for the entire welding segment. Co-located with wire India, Tube India and METEC India at Bombay Convention and Exhibition Centre, the metal fair quartet attracted around 17,350 trade visitors, delegates and key decision makers from all parts of India.

Objectives of Exhibitors

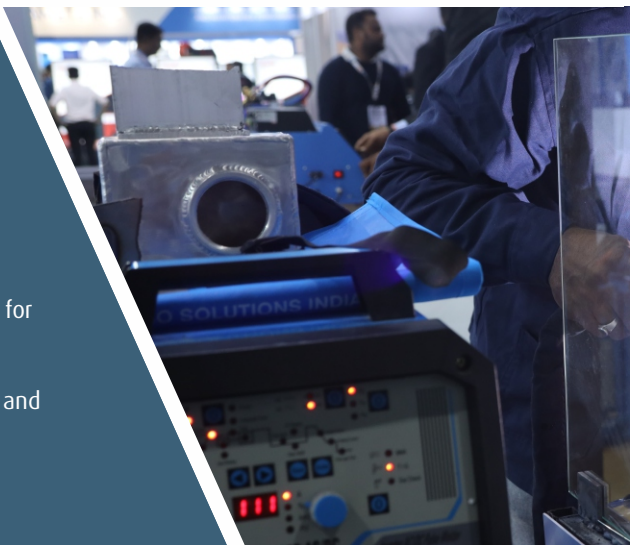

Exhibitors Feedback 2022

Exhibitor Target Groups

- Plant and Equipment for Joining, Surfacing and Cutting Processes
- Plant and Equipment for Heat Treatment and Other Production Processes
- General Production Equipment for Automation
- Plant for the production of Filler Materials and Consumables
- Fillers Materials
- Workshop and Workplace Equipment, Safety Equipment, Health and Safety Accessories
- Adhesive Bonding, Sealing, Applying
- Consumables and auxiliary materials
- Quality Assurance, Measurement and Testing
- Technology
- Sub-contracting (services)
- Systems for computer-aided production, data processing
- Instrumentation and control technology, automation
- Thermal spraying
- Industry Services Organisations for Joining & Cutting
- Vocational and further training
- Research, specialized literature and regulations

Exhibitor Testimonial

"India Essen Welding & Cutting has been a great platform and a great event to showcase our new launches. The event has been really great for us and we are really happy with the footfall and our participation here."

Mr. A. T. Malkani, Managing Director, Ador Welding

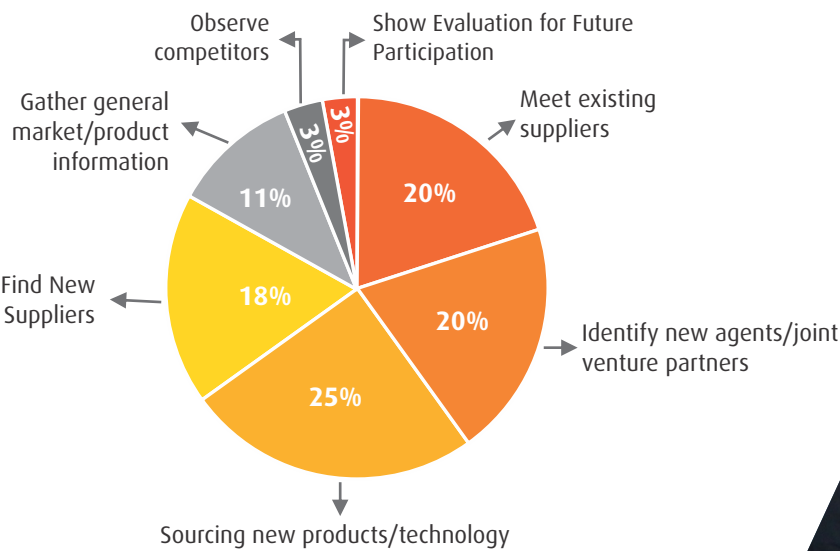

"The show has been good, India Essen Welding & Cutting is the Indian version of Essen Welding show. In India, the welding fraternity is small, we did see a good crowd coming at IEWC."

Mr. Nimesh Chinoy, Marketing Director, Sigma Weld

"Essen is a wonderful platform to showcase the upgraded technology that one has. The crowd that the event gets is good and includes technically sound people from different entities . Pulling off such a crowd pan-India is a good effort indeed. Along with this, the end to end management right from pre-day of the show till the end of show for an exhibitor is nicely taken care of. We are looking forward to 2024 now. Best wishes from the Fineweld Systems team."

Govind A Sahasrabuddhe (Application Engineer) DME,BE-Mech, Fineweld Systems

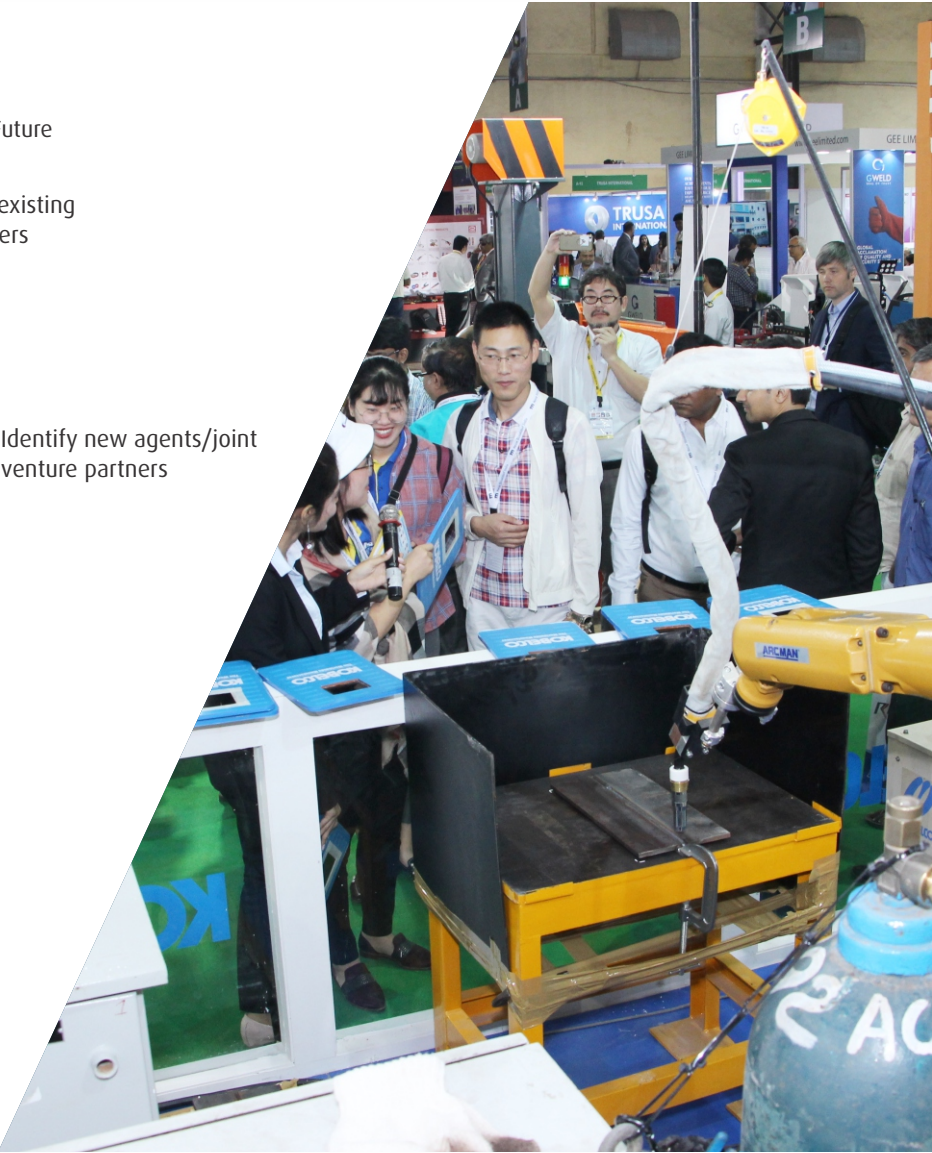

Purpose of Visit

Visitor Feedback 2022

Very Bad Poor Medium Good Excellent

Visitor Target Groups

- Aviation
- Automotive & OEM
- Defence Equipment
- Electrical / Electronics
- Energy Equipment & Power Plants
- Instrumentation, Testing & Measuring Instruments
- IT & Telecommunications
- Iron & Steel & Metal Fabricators
- Materials Handling
- Mining & Construction Equipment
- Oil & Gas/ Chemical Processing
- Railways Coach Building
- Ship Building
- Tool Manufacturers
